## **Appointment of Environmental Assessment Practitioner for the required environmental approval process required for coastal erosion mitigation and prevention along Erf 792 (Stywelyne Resort), Laaiplek.**

### *Scope of Works*

Tenders are hereby invited from Environmental Assessment Practitioners (EAP's), which comply with the general requirements specified in Regulation 13(1) of Government Notice No. R.40772, DEA, No. 326, Amendments to the Environmental Impact Assessment Regulations, 2014, to conduct a Basic Assessment process for the following site located within the Bergrivier Municipal Area:

- **SITE:** Erf 792, Laaiplek
- **Location map and photograph of Coastal erosion concern (Annexure A).**

### Background:

The Western Cape coastline is subjected to complex and dynamic coastal processes. Due to the effects of climate change, it was predicted that the Western Cape would experience, among other effects, changes in temperatures, decrease in rainfall and an increase in the frequency of storm surges along the coast. It is anticipated that the results of these storm surges would further worsen the impacts of coastal erosion in certain places, especially along the sandy shores where the coastline has been developed, such as is the case with Erf 792 and the surrounding properties along this coastline. The impact of storm surges was evident in Laaiplek as coastal properties and sections close to and next to Erf 792 were subjected to erosion. The property next to Erf 792, which is in Garnaal street, Erf 2858, Laaiplek, has constructed a new sandbag/ gabion structure during 2021, only after the necessary Environmental authorisation process was followed and approval received by Provincial Department (Department of Environmental Affairs and Development Planning).

Erosion concerns, due to wave action along the coastline at Remainder Erf 792, Laaiplek (which include the coastal boarder of Stywelyne Beach Resort), was identified as a concern. Erosion mitigation, adaptation and prevention measures at the coastline adjacent to Remainder Erf 792, Laaiplek is thus required to prevent further damage to Municipal infrastructure and buildings.

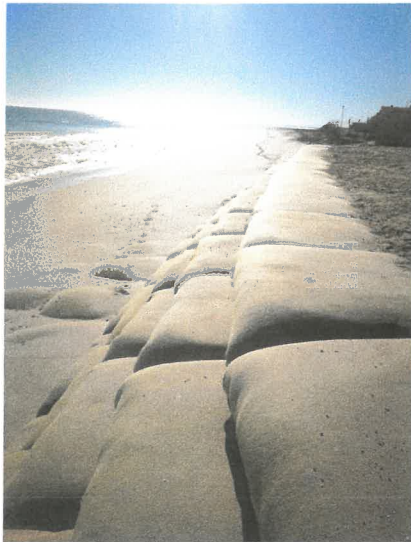

Erven 2858 and 792 falls within the Coastal Protection Zone as defined in the Integrated Coastal Management Act (No. 24 of 2008) (ICMA). According to the ICM Act, "The Coastal Protection zone is established for enabling the use of land that is adjacent to coastal public

property or that plays a significant role in a coastal ecosystem to be managed, regulated or restricted in order to –

- a) *Protect the ecological integrity, natural character and the economic, social and aesthetic value of coastal public property;*
- b) *Avoid increasing the effect or severity of natural hazards in the coastal zone;*
- c) *Protect people, property and economic activities from risks arising from dynamic coastal processes, including the risk of sea-level rise;*
- d) *Maintain the natural functioning of the littoral active zone;*
- e) *Maintain the productive capacity of the coastal zone by protecting the ecological integrity of the coastal environment; and*
- f) *Make land near the seashore available to organs of state and other authorised persons for-*
  - (i) *Performing rescue operations; or*
  - (ii) *Temporarily depositing objects and materials washed up by the coastal waters.”*

Sunset Restaurant on Erf 2858 (Erf. 792) completed a project - the rectification of Beach wall along erven 2858 and 792, Garnaal street, Laaiplek. due to erosion from wave action. These wave erosion concerns also occurs along the municipal property to the south of erf 2858 (erf 792).

#### Objective:

To obtain all the associated legally required authorisations (e.g. Environmental Authorisation (EA), etc.) for site specific coastal mitigation and prevention measures.

The mitigation measures considered must be focussed on engineering solutions that encompasses enhancing ecological infrastructure. Solutions considered must consider the existing risk modelling information generated during the WCG: DEA&DP CML delineation project, the existing (authorised) mitigation in place along the adjacent shoreline, relevant

legislation, policies and guidelines, and must identify any information gaps. Where possible, the DEA&DP will provide data and information.

The coastal risk information commissioned by the DEA&DP may be viewed at: <https://westerncapegov.maps.arcgis.com/apps/webappviewer/index.html?id=8f2793f9e36e423e85dd0337a554c02f>.

Reports associated with the coastal risk information is accessible at the following URL: <https://www.westerncape.gov.za/eadp/about-us/meet-chief-directorates/environmental-sustainability/biodiversity-and-coastal-management>.

Solutions identified must include short- medium- and long-term solutions and must include costing of long-term management strategies (including retreat) that must be implemented in order to determine the long-term feasibility from an environmental and economic perspective.

Due to wave action erosion also occurring on the municipal property to the south of Erf 2858 (erf 792), the Municipality is looking at implementing the same techniques used and implemented at Sunset Restaurant, approved for the previous applicant, J. Nel. Approved EA for Erven 2858 and 792 (Ref no: 14/2/1/F1/7/Sunset Restaurant, Laaiplek).

The Consultant to provide alternatives for intervention within 6 months. Bearing in mind that a sediment study may be required that comprises more detail regarding longshore currents and longshore drift along that shore. Additionally, the mitigation measures on the adjacent property (Sunset Restaurant mentioned above) must be considered as the sandbags that were erected to protect the adjacent restaurant is a huge contributing factor to the erosion at Stywelyne resort (Erf. 792).

#### Description of services:

It is incumbent for the selected Environmental Assessment Practitioner:

Dear Sir

**THE APPLICABILITY OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT NO. 107 OF 1998) ("NEMA") AND THE ENVIRONMENTAL IMPACT ASSESSMENT ("EIA") REGULATIONS, 2014 (AS AMENDED) FOR THE PROPOSED CONSTRUCTION OF A DECK ON A PILE FOUNDATION AND GEO-CONTAINERS TO PREVENT COASTAL EROSION ALONG ERF 792, LAAIPLEK**

1. The Applicability Checklist received via electronic mail by this Directorate on 14 September 2021 and the correspondence email from this Directorate on 15 September 2021, the correspondence from EAP via electronic mail on 28 October 2021 and the acknowledgement of receipt issued by this Directorate on 29 October, refers.
2. Based on the information provided, this Directorate notes the following:
  - 2.1. The Bergrivier Municipality proposes to remove an existing damaged fence and construct a deck with piles/columns as well as geo-containers to protect the beach along Erf 792 from coastal erosion.
  - 2.2. The Environmental Authorisation ("EA") issued in terms of section 24G of NEMA (Ref No. 14/2/1/F1/7/Sunset Restaurant, Laaipelek) was for activities on Erf 2858 and the southern section of Erf 792. This section 24G EA was issued to Mr Johan Nel of Hasal Beleggings CC.
  - 2.3. The Bergrivier Municipality proposes activities to expand on the aforementioned section 24G EA and aims to protect public property and municipal infrastructure.
  - 2.4. The proposed site is located on a property zoned Resort Zone.
  - 2.5. The activities are proposed within the urban edge of Laaipelek, but also stretches onto the edge of the coastal public property;
  - 2.6. The proposed site is within 100m of the high water mark of the sea;
3. Please note that the Section 24G EA is specific to the applicant who it was issued to (that is, Mr Nel) as well as limited to the site (i.e., relevant to Erf 2858 also referred to as Erf 3619). According to information

provided, it is evident that the Bergrivier Municipality wishes to do work additional and beyond the site authorised in the section 24G EA.

4. Therefore, based on the information provided, the proposed activities **will trigger** the following listed activity in terms of the NEMA EIA Regulations, 2014 (as amended), namely:

Listing Notice 1 of the NEMA EIA Regulations, 2014 (as amended):

Activity No. 19A

Activity Description:

*The infilling or depositing of any material of more than 5 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles or rock of more than 5 cubic metres from—*

*(i) the seashore;*

*(ii) the littoral active zone, an estuary or a distance of 100 metres inland of the high-water mark of the sea or an estuary, whichever distance is the greater; or*

*(iii) the sea; —*

*but excluding where such infilling, depositing, dredging, excavation, removal or moving—*

*(f) will occur behind a development setback;*

*(g) is for maintenance purposes undertaken in accordance with a maintenance management plan; (h) falls within the ambit of activity 21 in this Notice, in which case that activity applies;*

*(i) occurs within existing ports or harbours that will not increase the development footprint of the port or harbour; or*

*where such development is related to the development of a port or harbour, in which case activity 26 in Listing Notice 2 of 2014 applies.*

5. Written authorisation is therefore **required** from the competent authority prior to the undertaking of proposed activities on Erf 792.
6. Should any revision of your proposed development comprise any activities that constitute a listed activity as defined in Listing Notices 1, 2 or 3 of the NEMA EIA Regulations, 2014 (as amended) an application for environmental authorisation must be submitted to the competent authority and authorisation obtained before such activity(ies) may commence. The onus rests with the applicant and his/ her environmental assessment practitioner to ensure that all applicable listed activities are applied for and assessed.
7. You are further reminded of your general duty of care and the remediation of environmental damage. Section 28(1) of the NEMA specifically states that-

*"Every person who causes, has caused or may cause significant pollution or degradation of the environment must take reasonable measures to prevent such pollution or degradation from occurring, continuing or recurring, or, in so far as such harm to the environment is authorised by law or cannot reasonably be avoided or stopped, to minimise and rectify such pollution or degradation of the environment."*

This Directorate reserves the right to revise or withdraw comments or request further information based on any information received.

Your interest in the future of our environment is greatly appreciated.

Yours faithfully

### All Service Providers (SP's) and potential bidders

Dear Sir/Madam

#### **Incomplete documentation in terms of bidding processes.**

With reference to the judgment of the Supreme Court of Appeal case number 937/2012 Dr JS Moroka Municipality vs. Bertram (PTY) Limited 2013 JDR 2728 SCA the following:

"In our view the judgment supports the proposition that a Municipality determines the requirements for a valid tender and a failure to comply with the prescribed conditions of tender will result in such tender being disqualified as it would not be an 'acceptable tender' as defined in the Preferential Procurement Policy Framework Act 5 of 2000 unless the prescribed conditions are immaterial, unreasonable or unconstitutional.

Therefore, provided that the relevant tender document makes provision for **an original tax clearance certificate and/or any other certificates/documents** as a prescribed minimum prerequisite and/or peremptory requirement in order for such tender to be considered an 'acceptable tender' and to pass the threshold requirement for consideration and evaluation, and a tenderer fails to provide same, the Municipality would be within its rights to disqualify such tender/tenderer."

**Therefore BERGRIVIER Municipality will with immediate effect exclude all offers from bidders if the required documentation is not handed in/or attached with the original bidding documents.**
